

13 Junio 2014

The Universidad de Ingeniería y Tecnología (UTEC), PERU, is seeking highly qualified and creative professionals to join our engineering faculty.

UTEC has partnerships with world renowned institutions as well as an extensive network of companies with the aim of engaging in research collaborations and developing applied knowledge in a variety of engineering fields.

### **Qualifications**

Candidates should hold a PhD or terminal degree in one of the following disciplines: Mechanical Engineering, Electrical Engineering, Industrial Engineering, Energy Engineering or Chemical Engineering.

Additionally, successful candidates will have an outstanding academic and research record, as well as a strong commitment to undergraduate teaching, advising and mentoring.

### **Requirements**

New faculty members will be expected to split their time between research and teaching, including developing course curriculum and innovative teaching methods, identifying potential grant opportunities and leading the proposal writing process

The initial contract is for a one year period, and will be renewed upon the successful completion of the set objectives. Salary and benefits are extremely competitive.

### **To Apply**

Please send a cover letter, curriculum vitae, statement of teaching philosophy and research interests, all relevant publications, as well as the names and contact information for at least three academic references to Mariana Bazan at [mbazan@utec.edu.pe](mailto:mbazan@utec.edu.pe). Application materials should be submitted no later than June 30, however all positions will remain open until they are filled. For additional information about the university, visit our website at [www.utec.edu.pe](http://www.utec.edu.pe). UTEC is an equal education and employment opportunity employer.
